Subject: Updated spreadsheet from DOGGR
Copy of Aquifer Exemption List DOGGR rev 3-3-2016.xlsx

I called Rob and asked him if they had updated the AE Pipeline spreadsheet to include additional details and information on potential timing, as we discussed at the last State/EPA meeting. He sent the attached, which I have not yet reviewed in detail. I would consider this an internal working document.

Also, Rob attempted (via 3 email messages) to send me all of the comments received by the State on the AG AE. 1 of the 3 messages did not make it through due to the size of the attached files. He is working on splitting it up and will re-send the remaining comments.

Let me know where the comments should go for ease of access within EPA.

Thanks,

David
